New ICD-10-CM code for the 2019 Novel Coronavirus (COVID-19), April 1, 2020

Effective: March 18, 2020

On March 11, 2020 the Novel Coronavirus Disease, COVID-19, was declared a pandemic by the World Health Organization. On March 13, 2020 a national emergency was declared in the United States concerning the COVID-19 Outbreak.

Given these developments, and the urgent need to capture the reporting of this condition in our nation's claims and surveillance data, the Centers for Disease Control (CDC), under the National Emergencies Act Section 201 and 301, is announcing a change in the effective date of new diagnosis code U07.1, COVID-19, from October 1, 2020 to April 1, 2020. This off-cycle update is unprecedented and is an exception to the code set updating process established under HIPAA.

Emergency use ICD codes for COVID-19 disease outbreak

The COVID-19 disease outbreak has been declared a public health emergency of international concern.

- An emergency ICD-10 code of U07.1 is assigned to a disease diagnosis of COVID-19 confirmed by laboratory testing.
- An emergency ICD-10 code of U07.2 is assigned to a clinical or epidemiological diagnosis of COVID-19 where laboratory confirmation is inconclusive or not available.
- The title of U07 will be changed back to 'codes for emergency use'
- In ICD-11, the code for the confirmed diagnosis of COVID-19 is RA01.0 and the code for the clinical diagnosis (suspected or probable) of COVID-19 is RA01.2.

Dalam ICD-10 Online version terdapat Exclusion :
Kode Emergency itu adalah kode yang diperuntukkan bagi kasus-kasus yang masih belum jelas etiology dll, dan dalam sistem informasi mungkin masih belum tersedia kode khususnya.

Perhatikan keterangan pada kategori U00-U49 dan khususnya pada kategori U07 sendiri

▼ ICD-10 Version:2019

- ▶ I Certain infectious and parasitic diseases
- ▶ II Neoplasms
- ▶ III Diseases of the blood and blood-forming organs and certain disorders involving the immune mechanism
- ▶ IV Endocrine, nutritional and metabolic diseases
- ▶ V Mental and behavioural disorders
- ▶ VI Diseases of the nervous system
- ▶ VII Diseases of the eye and adnexa
- ▶ VIII Diseases of the ear and mastoid process
- ▶ IX Diseases of the circulatory system
- ▶ X Diseases of the respiratory system
- ▶ XI Diseases of the digestive system
- ▶ XII Diseases of the skin and subcutaneous tissue
- ▶ XIII Diseases of the musculoskeletal system and connective tissue
- ▶ XIV Diseases of the genitourinary system
- ▶ XV Pregnancy, childbirth and the puerperium
- ▶ XVI Certain conditions originating in the perinatal period
- ▶ XVII Congenital malformations, deformations and chromosomal abnormalities
- ▶ XVIII Symptoms, signs and abnormal clinical and laboratory findings, not elsewhere classified
- ▶ XIX Injury, poisoning and certain other consequences of external causes
- ▶ XX External causes of morbidity and mortality
- ▶ XXI Factors influencing health status and contact with health services
- ▼ XXII Codes for special purposes
 - ▶ U00-U49 Provisional assignment of new diseases of uncertain etiology or emergency use

(U00-U85)

Provisional assignment of new diseases of uncertain etiology or emergency use (U00-U49)

As of January 1, 2019, Zika virus disease is classified to A92.5.

U04 Severe acute respiratory syndrome [SARS]

U04.9 Severe acute respiratory syndrome [SARS], unspecified

U07 Emergency use of U07

Note: Codes U00-U49 are to be used by WHO for the provisional assignment of new diseases of uncertain etiology. In emergency situations codes are not always accessible in electronic systems. The specification of category U07 in the way it is done here will make sure this category and the subcategories are available in every electronic system at any time and that they can be used upon instruction by WHO, immediately.

U07.0 Vaping-related disorder

dabbing related lung damage
dabbing related disorder
electronic cigarette related lung damage
electronic cigarette related lung injury
dabbing related lung injury
e-cigarette - [electronic] cigarette related disorder
EVALI - [e-cigarette, or vaping, product use associated lung injury]
Use additional code, if desired, to identify pneumonia or other manifestations.

U07.1 COVID-19

Use additional code, if desired, to identify pneumonia or other manifestations.
Excl.: Coronavirus infection, unspecified site ([B34.2](#))
Coronavirus as the cause of diseases classified to other chapters ([B97.2](#))
Severe acute respiratory syndrome [SARS], unspecified ([U04.9](#))

U07.2 Emergency use of U07.2

Jadi kode tersebut dapat digunakan pada keadaan darurat (emergency) dan dapat digunakan berdasarkan instruksi WHO, pada kondisi darurat dan di sahkan oleh Undang-undang atau regulasi, meski belum masuk dalam sistem informasi kesehatan elektronik.

Perhatikan pula adanya kode tambahan (additional code) dan adanya exclusion (pengecualian) pada kasus Coronavirus.

EVALI - [e-cigarette, or vaping, product use associated lung injury]
Use additional code, if desired, to identify pneumonia or other manifestations.

U07.1 COVID-19

Use additional code, if desired, to identify pneumonia or other manifestations.

Excl.: Coronavirus infection, unspecified site ([B34.2](#))
Coronavirus as the cause of diseases classified to other chapters ([B97.2](#))
Severe acute respiratory syndrome [SARS], unspecified ([U04.9](#))

U07.2 Emergency use of U07.2

U07.3 Emergency use of U07.3

U07.4 Emergency use of U07.4

Consistent with this WHO update to the ICD-10, the Centers for Disease Control and Prevention's National Center for Health Statistics (CDC/NCHS) will implement a new diagnosis code into the International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) for reporting, effective with the next update, October 1, 2020. Full addenda information regarding the new code and the final title will be presented at the March 2020

ICD10 Coordination and Maintenance Committee meeting. ICD-10-CM interim coding guidance can be found at: (<https://www.cdc.gov/nchs/icd/icd10cm.htm>)

Dalam publikasi yang disampaikan oleh CDC disebutkan bahwa untuk pelaporan secara resmi (masuk dalam sistem informasi) direncanakan tgl 1 Okt 2020 dengan addendum penuh ditambahkan pada Maret 2020.

Utk pedoman koding sementara, CDC menerbitkan ICD-10-CM interim coding guidance : (<https://www.cdc.gov/nchs/icd/icd10cm.htm>)

Dapatkah U07.1 digunakan sebagai kode untuk COVID-19 Di Indonesia ?

Penulis belum menemukan petunjuk penggunaan kode terkait COVID 19 di Indonesia, yang sudah terpublikasi adalah pengumuman dari WHO tentang penggunaan kode emergency

<http://www9.who.int/classifications/icd/covid19/en/>

Dan pedoman koding sementara dari CDC ICD-10-CM interim coding guidance : <https://www.cdc.gov/nchs/icd/icd10cm.htm>

Kode Emergency adalah kode sementara selama belum dapat dimasukkan ke dalam kategori yang spesifik dalam ICD 10. Ada kemungkinan perubahan kode tersebut di masa mendatang.

Contoh kasus :

Kode emergency yang mengalami perubahan adalah infeksi virus ZIKA

Pada tahun 2016, virus Zika masuk dalam kode emergency U06
